Education

University of Saskatchewan, Saskatoon, SK, Canada

July 2021 – Apr 2026

Bachelor of Science– Computer Science

Relevant Coursework - Algorithm Design & Analysis, Object-Oriented Systems, Advanced Operating Systems, Computer Architecture, Full Stack Web Development.

Technical Skills:

Programming Languages: Python, C, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Django, Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib

Tools & Technologies: Git, Docker, Linux, Figma

Certifications: IBM Data Science Professional Certificate, IBM Full Stack Software Developer, Google UX Design Certificate

Projects

AskMentor — React.js, Node.js, SQL, Docker, git

- Developed a full-stack discussion platform enabling users to create topic channels and participate in technical discussions using React, Node.js, and MySQL.

Data Predictify — Python, Pandas, Scikit-learn, Matplotlib, Seaborn

- Built a machine learning pipeline to preprocess data, train predictive models, and visualize insights using Python and Scikit-learn on a Kaggle dataset.

Mini OS — C, System-Level Programming (*Advanced Operating Systems Coursework*)

- Co-developed a mini operating system in C implementing synchronization mechanisms to solve classic problems such as the producer–consumer scenario.

Experience

IT Support - University of Saskatchewan

Jan 2025 – June 2026

- Provide technical support to clients over phone, email, and in person by troubleshooting software, hardware, account, and network connectivity issues.
- Assist users with device setup, system configuration, installation of applications, and resolution of technical issues.

Marker - Department of Mathematics and Statistics | University of Saskatchewan

Sept 2024 – April 2026

- Evaluated assignments, labs, and exams and provided feedback to support student learning and – ensuring grading accuracy.
